of lack of fresh water we find this message not only insulting but also being a frightening example of how some people have alienated themselves from reality and the real problems in our world".

- You might call me cynical, but RR could at the same time announce a campaign whereby they collect money to be sent to the children in former Jugoslavia. Or this they could do even much before, perhaps together with some other concerned associations.

Looking forward to your comments,

Johan

Subject: Children's smokefree air conference
I sympathize with Ingemo Bonnier's note below. - Sibylle will circulate the program for this conference.
In theory, as the main part of the program is in English, someone like yourself or a hand-picked scientific witness might even attend the panel. With the meeting attended by a nr of senior Nordic health politicians I am uncomfortable about all the incorrect information we must assume will be floated around without any counter-arguments even on record.Also, I do agree with IB's viewpoint that the industry should make it's position concerning juvenile smoking etc clear.
Most grateful for your comments and suggestions,
best regards, Stig

Stig,
I just had the agenda from Truls re the conference in Oslo October 11. I am in the process of preparing possible action from RR.s side. But I also have the following suggestion / would it be possible that the Norwegian NMA or PM at the conference delivered a paper, a statement which clarifyes our position and also gives some scientific background information.
The paper and the statement should at the same time be delivered to media with a spokes person contact number.
I feel that we have to be participating in some way, not necessarily being there in person, but taking the opportunity to stress that we are for an age/limit and that we regard smoking being an adult habit. We can also talk about our accomodation policy / which of course is vital when children are present etc etc.
What do you think?

Regards,
Ingemo
